Bloom Cutting Garden Pack

bloomsubscription.com • bloomsubscription@gmail.com

Thanks for your purchase! Here are some tips to keep your plants happy:

Initial Care

- These packs contain small, live plants that require gentle, consistent watering while young.
- Plants can stay in the trays for up to one week.
- Water gently every day while in trays, but avoid overwatering.

Planting and Ongoing Care

1. **Watering Schedule:**
   - First week after planting: Every 1-2 days
   - After first week: 2-3 times per week (less if it rains)
2. **Recommended fertilizer brand** (optional): Neptune's Harvest Fish & Seaweed Fertilizer 2-3-1 (https://link.amazon/B02abDiMH)
3. **Planting Distances:**

Plant	Distance Apart	Sun Exposure	Pinch?
Rudbeckia	9-12"	Full sun	No
Snapdragons	6-9"	Full sun	No
Campanula	6-9"	Full sun	No
Phlox	6-9”	Afternoon shade	Yes
Feverfew	8-12”	Full sun	No
Strawflower	10-12”	Full sun	Yes
Godetia	10-12”	Full sun	Yes

4. **Support:** Will be necessary for many if not all; these will get tall!
5. **Expected Blooming:** Spring or early summer

Note

These plants have been moved to larger trays and may not be fully rooted when removed. This is normal and won't affect their growth.
